No. 2315P.—With reference to Notification No. 708, dated Simla, 18th July 1867, conferring the title of Rai Bahadur as a personal distinction on Baboo Pertab Narain Burooa, Zemindar of Ghoorla in Cooch Behar, for Pertab Narain, read Pertab Chundra.

The 18th December 1872.

No. 2348P.—The following Treaty of Commerce and Navigation, signed on the 5th November 1872 by the Plenipotentiaries of Great Britain and France, is published for general information:—

Her Majesty the Queen of the United Kingdom of Great Britain and Ireland and His Excellency the President of the French Republic, being equally animated with the desire to draw closer the ties of friendship which unite their two countries, and being desirous of placing on a permanent and satisfactory footing the commercial relations between the two States, have determined to conclude a Treaty of Commerce and Navigation, which shall be substituted for the Treaty and Conventions of the 23rd of January and 12th of October and 16th of November 1860, and they have accordingly appointed as their respective Plenipotentiaries for that purpose; that is to say:

Her Majesty the Queen of the United Kingdom of Great Britain and Ireland, the Right Honourable Granville George Earl Granville, Lord Leveson, a Peer of the United Kingdom, Knight of the Most Noble Order of the Garter, a Member of Her Majesty's Privy Council, Lord Warden of the Cinque Ports and Constable of Dover Castle, Chancellor of the University of London, Her Majesty's Principal Secretary of State for Foreign Affairs;

And His Excellency the President of the French Republic, M. Charles Gavard, Chargé d'Affaires of France at London, Officer of the National Order of the Legion of Honour, &c., &c., and M. Ozenne, Councillor of State, Secretary-General in the Department of Agriculture and Commerce, Commander of the National Order of the Legion of Honour, &c., &c., &c.;

Who, after having communicated to each other their respective full powers, found in good and due form, have agreed upon the following Articles:

ARTICLE I.

The subjects of Her Britannic Majesty who dwell either temporarily or permanently in France and in French Possessions, and the subjects of France who dwell either temporarily or permanently in the dominions or possessions of Her Britannic Majesty, shall enjoy therein, in respect to their residence in the territories of the other State and the exercise of commerce and trades, the same rights as, and be subjected to no higher or other taxes than, native subjects or the subjects of any third country the most favoured in those respects.

ARTICLE II.

The President of the French Republic having represented to Her Majesty the Queen of the United Kingdom of Great Britain and Ireland that the financial necessities of France imperatively require the imposition of new taxes in that country and the modification for that purpose of the stipulations in regard to Tariffs of the Treaty of the 23rd of January 1860, and of the Supplementary Conventions of the 12th of October and 16th of November of the same year, Her Majesty, in a spirit of friendship towards France, consents to such modification subject to the conditions specified either in this or in other Articles of the present Treaty.

The High Contracting Parties guarantee to each other the treatment of the most-favoured nation: that is to say, from the 1st December 1872, no duties shall be imposed either in France or in Algeria on goods the produce or manufacture of the United Kingdom or of British Possessions higher than the duties imposed on the like goods the produce or manufacture of any other foreign country, whether within or beyond Europe; and no duties shall be imposed in the United Kingdom on goods the produce or manufacture of France or French Possessions higher than the duties imposed on the like goods the produce or manufacture of any other foreign country, whether within or beyond Europe; and any favour, immunity, privilege, or reduction of duty whatsoever (other than those in regard to which a special exception is hereinafter made) in matters relating to the commerce of the United Kingdom or of France and Algeria respectively, which has been or may be, conceded by either Party to any third Power whatsoever, whether within or beyond Europe, shall be extended, immediately and unconditionally, to the other Contracting Party.

It is agreed, however, that, from the 1st of December next, if the ratifications of the present Treaty and the Protocol annexed thereto shall have been exchanged before that date, and if not, from the date of such ratifications being exchanged, the duties specified in Annex I may be levied until the 31st December 1876, on goods the produce or manufacture of the United Kingdom or of British Possessions imported into France or Algeria.

It is also agreed between the High Contracting Powers—

1st.—That, as long as the Treaties concluded by France with other Powers shall not be modified, these duties shall, during the above-mentioned period, be the maximum duties which may be levied on goods the produce or manufacture of the United Kingdom or of British Possessions on their importation into France or Algeria.

2nd.—That the difference, as against such goods, of the duties therein specified shall not be increased relatively to the duties on the like goods now levied under Treaties existing between France and any third Power.

3rd.—That, except as specially provided in the third paragraph of this Article, the Tariffs annexed to the Treaty and Conventions of 1860 above-mentioned, shall remain in force until the 15th of March 1873.

4th.—That any reduction of duties which has been or may hereafter be granted by France to any third Power, whether within or beyond Europe, shall be immediately and unconditionally extended to Great Britain; and, reciprocally, that any reduction of duties which has been or may hereafter be granted by Great Britain to any third Power, whether within or beyond Europe, shall be immediately and unconditionally extended to France; and that no increase shall be made by Great Britain in the duties imposed by the Tariff now in force in the United Kingdom, of which a copy forms Annex II to the present Treaty, upon goods the produce or manufacture of France or of any French Possession which shall not equally be made with respect to goods of the same nature the produce or manufacture of any other country.

5th.—That hereafter British ships and their cargoes shall, in France and Algeria, and French ships and their cargoes shall, in the United Kingdom of Great Britain and Ireland, from whatever place arriving, and whatever may be the places of origin or destination of their cargoes, be treated in every respect as national ships and their cargoes.

The coasting trade, however, is excepted from the preceding stipulation, and remains subject to the respective laws of the two countries.

ARTICLE III.

The transit of goods to and from the United Kingdom shall be free from all transit duties in France and Algeria, and the transit of goods to and from France and Algeria shall be free from all transit duties in the United Kingdom.

ARTICLE IV.

No prohibition of importation or exportation shall be established by either of the High Contracting Powers against the other, which shall not at the same time be applicable to all other foreign nations whatsoever: except, however, temporary prohibitions or restrictions which either Government may think it necessary to impose in regard to contraband of war or for sanitary purposes.

ARTICLE V.

If one of the High Contracting Powers shall impose an excise tax or inland duty upon any article of home production or manufacture, an equivalent compensatory duty may be imposed on articles of the same description on their importation from the territories of the other Power, provided that the said equivalent duty is levied on the like articles on their importation from all other foreign countries.

But no compensatory duty shall be leviable in respect of a Customs duty on raw materials or other produce or goods imported from abroad.

In the event of the reduction or abolition of any such excise tax or inland duty, a reduction corresponding in amount shall at the same time be made in the equivalent compensatory import duty on manufactures.

ARTICLE VI.

Duties *ad valorem* payable in France or Algeria shall be calculated on the value at the place of production or fabrication of the article imported, with the addition of the cost of transport, insurance, and commission necessary for the importation into France or Algeria as far as the port of discharge.

For the levying of these duties, the importer shall make a written declaration at the Custom-house, stating the value and description of the goods. If the Custom-house authorities shall be of opinion that the declared value is insufficient, they shall be at liberty to take the goods on paying to the importer the price declared with an addition of five per cent.

This payment, together with the restitution of any duty which may have been levied upon such goods, shall be made within the fifteen days next following the declaration.

ARTICLE VII.

The French Government shall have the power to designate certain Custom-houses exclusively for the admission of goods taxed *ad valorem*, the valuation of which may appear to them to present difficulties.

ARTICLE VIII.

The importer, against whom the French Customs may desire to exercise the right of pre-emption stipulated in Article VI, may, if he prefers to do so, demand a valuation of his goods by experts.

The same demand may be made by the French Customs when they may not think fit to have immediate recourse to pre-emption.

Should the French Customs decline to exercise their right of pre-emption, they shall authorize the immediate surrender of the goods to the importer, on the express condition that the said importer shall offer adequate security for the payment of the duties and fines which might result from the valuation by experts, for which valuation the Customs shall retain the necessary samples.

ARTICLE IX.

If the result of such valuation by experts should prove that the value of the goods is not five per cent. above that which has been declared by the importer, the duty shall be levied upon the value so declared.

If the proved value is five per cent. or more above the value declared, the French Customs authorities shall be entitled, at their choice, either to exercise the right of pre-emption or to levy the duty on the value determined by the experts.

This duty shall be increased by fifty per cent., as a fine, if the valuation of the experts is ten per cent. or more above the declared value.

If the value, as determined by the experts, exceeds the declared value by five per cent. or more, the costs of the valuation by the experts shall be defrayed by the declarant. In all other cases they shall be defrayed by the French Customs authorities.

In case of any dispute arising between the importer and the French Customs authorities as to the class or denomination under which any goods may be chargeable with duty, such dispute shall be referred to and be decided by experts, if the importer is dissatisfied with the decision of the Customs.

In all cases of dispute the declarant shall have the option, if he thinks fit, to remove the valuation by experts from an outport to Paris. The desire for such removal must be signified before the inquiry by experts at the outport begins.

ARTICLE X.

In the cases contemplated by Articles VIII and IX, two experts shall be named, one by the declarant or his agent, the other by the local Chief of the Customs Service at the place where the inquiry is to take place. If there be difference of opinion between them, or if at the time of appointing the experts the declarant shall require it, the experts shall choose an Umpire. In default of agreement, such Umpire shall be appointed by the President of the Tribunal of Commerce at the port of importation, or, in his default, by the President of the Tribunal of Commerce at the nearest place. The declarant, as well as the Customs authorities, may demand that, instead of being made in the above-mentioned manner, the inquiry shall be carried out at Paris by the Board of Legal Expertise appointed to be held at the Ministry of Agriculture and Commerce by Article 19 of the Law of the 27th July 1822.

Such option must be declared within twenty-four hours of the notification of pre-emption or of the demand for an inquiry by experts.

The experts which the above-mentioned Board shall associate with themselves to report on the matters submitted to them, must be chosen from the list annually prepared by the President of the Chamber of Commerce of Paris.

The decision of the experts shall be given within eight days if the inquiry takes place at the place of arrival, and, if the settlement is referred to the Board of Legal Expertise at Paris, it shall be given within fifteen days.

ARTICLE XI.

In order to establish the fact that goods are the produce or manufacture of the United Kingdom or British Possessions, the importer may, if he shall think fit, present at the French Custom-house a certificate of origin which shall be either an official declaration made before a Magistrate exercising jurisdiction at the place of despatch, or a certificate granted by the chief officer of the Customs at the port of embarkation, or a certificate granted by the Consul or Consular Agent of France at the place of despatch or at the port of embarkation.

The signature of the British authority shall be certified by the Consul or Consular Agent of France, if any, residing in the place or possession from which the goods are despatched or shipped; and if in the case of a British Possession there is no such Consul or Consular Agent, then by the Officer administering the Government of such Possession.

ARTICLE XII.

The importer of machines and mechanical instruments, whether complete or in detached pieces, or of other articles the produce or manufacture of the United Kingdom or British Possessions, shall be exempt from any obligation of producing at the French Customs any models or drawings of such articles.

ARTICLE XIII.

The importer of any goods the produce or manufacture of the United Kingdom or British Possessions, taxed *ad valorem*, may, if he shall think fit, attach to the declaration verifying the value of such goods, and to the certificate of origin an invoice emanating from the manufacturer or from the seller, which shall show the price actually charged to him for such goods.

ARTICLE XIV.

When goods upon which an *ad valorem* duty is levied have been previously warehoused, the duty shall be levied according to the value of those goods at the time of their actual importation into France or Algeria.

ARTICLE XV.

Independently of the duties of Customs, articles of goldsmith's work and of jewellery of the manufacture of either country in gold, silver, platina, or other metals, imported into the other, shall be subject to the system of control established in the country of importation for similar articles of domestic manufacture, and shall pay, if required, on the same basis as national articles, the duties of marking and guarantee.

The above stipulations shall be applicable to fire-arms, anchors, chain cables, and all other articles over which similar control is or may be exercised.

ARTICLE XVI.

The subjects of each of the two High Contracting Powers shall, in the dominions of the other, enjoy the same protection and be subject to the same conditions as native subjects in regard to the rights of property in trade marks and other distinctive marks showing the origin or quality of goods, as well as in patterns and designs for manufactures.

ARTICLE XVII.

Articles liable to duty serving as patterns or samples, which shall be introduced into the United Kingdom by French commercial travellers or into France and Algeria by commercial travellers of the United Kingdom, shall be admitted free of duty, subject to the following formalities requisite to insure their being re-exported or placed in bond:

1. The officers of Customs at any port or place at which the patterns and samples may be imported shall ascertain the amount of duty chargeable thereon. That amount must either be deposited by the commercial traveller at the Custom-house in money, or ample security must be given for it.

2. For the purpose of identification each separate pattern or sample shall, as far as possible, be marked by the affixing of a stamp or by means of a seal being attached to it.

3. A permit or certificate shall be given to the importer which shall contain—

(a.) A list of the patterns or samples imported, specifying the nature of the goods and also such particular marks as may be proper for the purpose of identification;

(b.) A statement of the duty chargeable on the patterns or samples, as also whether the amount was deposited in money or whether security was given for it;

(c.) A statement showing the manner in which the patterns or samples were marked;

(d.) The appointment of a period, which at the utmost must not exceed twelve months, at the expiration of which, unless it is proved that the patterns or samples have been previously re-exported or placed in bond, the amount of duty deposited will be carried to the public account or the amount recovered under the security given.

No charge shall be made to the importer for the above permit or certificate or for marking for identification.

4. Patterns or samples may be re-exported through the Custom-house through which they were imported, or through any other.

5. If, before the expiration of the appointed time (paragraph 3, d), the patterns or samples should be presented at the Custom-house of any port or place for the purpose of re-exportation or being placed in bond, the officers at such port or place must satisfy themselves by examination whether the articles which are brought to them are the same as those for which the permit of entry was granted. If so satisfied, the officers will certify the re-exportation or deposit in bond, and will refund the duty which had been deposited, or will take the necessary steps for discharging the security.

ARTICLE XVIII.

Each of the High Contracting Parties may appoint Consuls-General, Consuls, Vice-Consuls, and Consular Agents to reside in the towns and ports of the dominions and possessions of the other, where, in accordance with established practice, such Consular Officers are allowed to reside. Such Consuls-General, Consuls, Vice-Consuls and Consular Agents, however, shall not enter upon their functions until after they shall have been approved and admitted, in the usual form, by the Government to which they are sent. They shall, within their Consular district, be allowed to exercise whatever functions, and shall enjoy whatever privileges, exemptions, and immunities, are or shall be granted to Consuls or Officers of the same rank of the most favoured nation at the place where they are appointed to reside.

ARTICLE XIX.

The Consuls-General, Consuls, Vice-Consuls, and Consular Agents of each of the Contracting Parties residing in the dominions and possessions of the other shall receive from the local authorities such assistance as can by law be given to them for the recovery of deserters from the vessels of their respective countries.

ARTICLE XX.

The High Contracting Parties reserve to themselves the power of levying from the subjects of the other landing or shipping dues, in order to pay the expenses of all necessary establishments at the ports of importation and exportation.

Such dues, however, shall not be higher or other than those levied on national goods, cargoes, or shipping.

In all that relates to local treatment, Customs formalities, brokerage, warehousing, re-exportation, dues and charges in the ports, basins, docks, roadsteads, harbours and rivers of the

two countries, the privileges, favours, or advantages which are or shall be granted to national vessels generally, or to the goods imported or exported in them, shall be equally granted to the vessels of the other country, and to the goods imported or exported in them, excepting always the coasting trade.

ARTICLE XXI.

The High Contracting Parties agree to appoint a Commission, which shall consist of one member on the part of each Government to meet at Paris within ten days after the signature of the present Treaty, to discuss certain questions connected with the duties to be levied under Annex I, which questions are not yet settled between the two Governments. The result of this examination shall form the subject of a Report, which the Commissioners shall address to their respective Governments. They further agree to refer to the same Commission the settlement of certain other questions, as provided for in a separate Protocol, which shall be annexed to the present Treaty, and shall be included in the ratification thereof.

The Commission shall finish its labours within three months, if possible, but its duration may be prolonged by agreement between the High Contracting Parties for any period or periods not exceeding six months longer.

ARTICLE XXII.

The provisions in regard to Tariffs contained in Article II of the present Treaty shall remain in force till the 1st day of January 1877, and the provisions in regard to navigation contained in the same Article shall remain in force until the 15th of July 1879, and thenceforth until terminated in the manner mentioned in this Article.

The High Contracting Parties, if they think fit, may communicate with each other respecting the general working of the present Treaty, and come to an understanding by means of a Declaration or Protocol with respect to its further duration. Failing such definite understanding and subject to the condition in the next Article stated, either Party may, by twelve months' previous notice, which may be given either at any time after the aforesaid dates respectively, or within the twelve months next preceding the same, terminate any of the provisions contained in the preceding Articles of the present Treaty, and, until the expiration of any such notice, this present Treaty, or such part thereof as shall for the time being not be terminated by any similar notice, shall remain in force.

ARTICLE XXIII.

The High Contracting Powers in reserving to themselves the power, as set forth in Article XXII, to terminate any specific provisions contained in the present Treaty, engage, nevertheless, at all times hereafter to treat each other in all matters relating to commerce and navigation on the footing of the most favoured nation, and that the termination of any specific provisions of the present Treaty, as stipulated in the preceding Article, shall be subject to the above condition.

ARTICLE XXIV.

The President of the French Republic engages to recommend the National Assembly to give the necessary sanction for the execution of the present Treaty as soon as possible after an agreement between the two Governments shall have been arrived at with respect to the questions which are mentioned in Article XXI, and which, not having yet been settled, are by the same Article XXI referred to the Commission therein mentioned.

The ratifications of the present Treaty shall be exchanged at Paris as soon as possible after such sanction shall have been notified to Her Majesty's Government; the Treaty shall come into force immediately on the exchange of the ratifications; and the Treaty of the 23rd January 1860, the Additional Articles of the 25th February 1860 and 27th June 1860, and the Supplementary Conventions of the 12th October and 16th November 1860, shall be cancelled thereafter, except in so far as relates to the specific stipulations contained in Article II, and the arrangements with respect to matters reserved to the Commission to be appointed in conformity with Article XXI of the present Treaty.

In witness whereof the respective Plenipotentiaries have signed the present Treaty, and have affixed thereto the Seals of their arms.

Protocol of a Conference held at the Foreign Office, November 5, 1872, between the Plenipotentiaries of Great Britain and of France.

The Plenipotentiaries of Her Britannic Majesty and of the French Republic, in proceeding to the signature of the Treaty of Commerce and Navigation of this date, place upon record that they have agreed upon the following points:—

ARTICLE I.

The Commission named in Article XXI of the Treaty of Commerce and Navigation of this date between Great Britain and France shall meet at Paris within ten days after the

signature of the Treaty and the present Protocol, in order to examine the questions reserved by the said Article XXI for further consideration, and, if possible, to recommend to the Governments of the two countries a settlement of the same.

After their first meeting, the Commission shall adjourn for a period not exceeding ten days, in order to allow the British Commissioner to prepare the statement in regard to these several matters to be presented on the part of Her Majesty's Government.

When the Commission shall have agreed on its Report on the said questions, which it shall have examined and discussed, it shall adjourn for a period not exceeding fourteen days, in order to enable the two Governments to come to a decision with regard to its recommendations, which decision the Commission shall announce at its first meeting.

As soon as an agreement shall have been come to between the two Governments on these questions, the President of the French Republic shall proceed with the Treaty in the manner specified in Article XXIV of the said Treaty.

ARTICLE II.

As soon as the National Assembly shall have sanctioned the Treaty, the Commission shall meet again to deliberate and to decide upon the questions hereinafter stated as to existing contracts and relating to British mineral oils, and as to the duties to be levied in respect thereof.

ARTICLE III.

The High Contracting Parties, before the exchange of the ratifications of the present Treaty and Protocol, shall name some third person to act as Arbitrator in regard to any points in connection with the questions referred to in the preceding Article on which the Commissioners may themselves differ in opinion. The Commissioners shall refer any such points to the Arbitrator, whose decision shall be binding on the Commissioners, and shall be reported by them accordingly.

The High Contracting Parties shall forthwith carry out the decision come to by the Commission or by the Arbitrator.

ARTICLE IV.

All contracts already entered into for the delivery of goods in France or Algeria, which are still unexecuted in whole or in part, may be submitted to the Commission for equitable consideration as to the relief to be afforded to the importer of such goods from payment of the augmented duties to which they would otherwise be liable under the Tariff in Annex I, before the 15th of March 1873.

Immediately on the signature of the Treaty, the two Governments respectively shall publish notices requiring all contracts made in the United Kingdom, or in France or Algeria, as the case may be, which remain to be executed in whole or in part between the date when the Tariff, Annex I, shall come into operation and the 15th March 1873, to be notified in writing within fourteen days after the publication of such notice at the Foreign Office in London and at the Ministry of Agriculture and of Commerce in Paris. The two Governments shall cause such contracts to be examined by the Commission with the view to ascertain their validity, that is to say, that they were binding contracts according to the Laws of the respective countries, when they were entered into, and also that they were entered into in good faith as regards the French Government; meaning, that they were not entered into by persons aware of an intention or proposal on the part of the respective Governments to agree to the duties being raised before the 15th of March 1873, with a view to evade the payment of the increased duties.

Should the Commissioners differ in opinion in regard to any particular case or cases, they shall refer the same to the Arbitrator, whose decisions shall be final.

In case the validity of any of such contracts shall be admitted by the Commission, the French Government will take the necessary steps for repaying to the importers the duties levied in excess on goods comprised in the contracts so admitted to be valid, and imported into France between the date when the Tariff in Annex I shall come into operation, and the 15th of March 1873, that is to say, the amount of duty levied beyond the amount which would have been levied as duty under the Tariffs authorized by the Treaty and Conventions of 1860, or as to any such duties which have been reduced since 1860 by the French Government, then beyond the amount of such duties which would have been levied for such reduced duties.

ARTICLE V.

The Commission shall also decide on questions concerning duties levied in France on British mineral oils, which have formed the subject of diplomatic correspondence between the two Governments, and shall effect a settlement of the same on the following terms:

The French Government consents to admit, at the duty of 5 per cent., the rate of duty levied previously to the passing of the Law of the 8th July 1871, British mineral oils. It is nevertheless agreed that the said oils, in conformity with Article V of the present Treaty, shall be likewise subject to the duty of 5 fr. per 100 kilog. now established by the same Law of the 8th of July 1871, or those which may be hereafter levied, on the like oils manufactured in France;

To extend the benefit of the above provisions to British mineral oils, to be supplied to persons in France, under contracts entered into before the promulgation of the Law of the 8th of July 1871;

To examine how far it would be possible to effect reimbursement of duties levied in excess of the duty of 5 per cent., and the tax of 5 fr. per 100 kilog. above referred to, in the case of British mineral oils introduced into France since the promulgation of the Law of the 8th of July 1871, otherwise than in pursuance of contracts previously entered into.

In regard to the contracts referred to under the third paragraph, the settlement shall include indemnification for actions of breach of contract resulting from the operation of the Law of the 8th of July 1871.

ARTICLE VI.

The Commission, after the conclusion of its labours in respect of the questions directed in the foregoing Articles, to be referred to it, shall also consider and report on any other questions which the High Contracting Parties may now or hereafter agree to refer to it.

The Government of Her Britannic Majesty desire that it should inquire into the causes which have hitherto prevented the full execution of the Fishery Convention of the 11th of November 1867.

The French Government desire that it should inquire in the causes which have hitherto prevented the Literary Convention concluded between the two countries on the 3rd of November 1851, producing the results expected from it in regard to performances and representations of dramatic and lyrical works on the English stage.

ARTICLE VII.

At any meeting of the Commission after its first preliminary meeting, persons may be called to give information on any point in regard to which either of the Commissioners may think such a course advisable.

London, the 5th November 1872.

The Viceroy then delivered to the assembled Chiefs and Nobles the following address, a translation of which was afterwards read by the Foreign Secretary:—

“MAHARAJA HOLKAR, RAJAS AND CHIEFS OF CENTRAL INDIA,—You are heartily welcome. I am glad to see you all assembled here to show your allegiance to the British Crown, and your loyalty and attachment to Her Most Gracious Majesty the Queen.

“The occasion is a fortunate one, for I hope to-day to lay the first stone of the bridge which is to carry the Indore Railroad across the Nerbudda into the rich district of Malwa.

“I am happy to have this opportunity of publicly acknowledging the active part which His Highness Maharaja Holkar has taken in furthering the construction of this important line; and I trust that others among you will, ere long, secure for your territories the benefits which always follow from the opening of Railway communication. As the Representative of the Queen in India, and in accordance with Her Majesty's commands, which were so faithfully followed by the Earl of Mayo, it is my anxious desire to respect your honour and your dignity, and to maintain the integrity of your dominions. Her Majesty expects, in return, that the people over whom you rule shall be well and justly governed, and that no cause for serious discontent or disturbance shall arise. The British Government, in the discharge of the duty of preserving peace and order in the country which devolves upon Her Majesty as the paramount Power in India, has occasionally been compelled to assume the management of some of the Native States in Central India; but in so doing we look for no increase of territory or other advantage for ourselves, and I shall be glad whenever our intervention can properly be withdrawn.

“Maharaja, Rajas and Chiefs, this is the first Durbar that has been held in this neighbourhood by a Viceroy of India. I am very glad that it should have fallen to my lot to perform the pleasing duty, and I can assure you that I shall carry away with me from this place a lively personal interest in your welfare.”

After the distribution of Uttur and Pan, the Durbar was dissolved under the usual ceremonies.

CLAUSE 140, WAR OFFICE CIRCULARS, DATED 1ST SEPTEMBER 1872.

Gratuities to Soldiers on discharge.

1. The General Fund, which has been formed from the fines inflicted upon soldiers for the crime of drunkenness, is appropriated to the purpose of granting gratuities to well-conducted soldiers on discharge from the army.
2. The scale of gratuities will be regulated annually according to the state of the General Fund, and will be notified to the army from time to time.
3. From the 1st September to the 31st December 1872, the issue of the gratuities will be regulated by the following rules, except that in Colonial Corps the rates of gratuity will be only half those fixed for the army generally.
4. Every soldier, below the rank of corporal, who shall be discharged during, or at the end of, his first period of service, otherwise than for misconduct, will be paid, at the time of his discharge, a gratuity calculated at the rate of ten shillings for each good conduct badge then in his possession.
5. Every such soldier, who shall be discharged during, or at the end of, his second period of service, except for misconduct, will be paid, at the time of his discharge, a gratuity calculated at the rate of £1 for each good conduct badge then in his possession; provided that the total sum of £3 shall not be exceeded, except in the case of a soldier who may not, for the 10 years previous to his discharge, have been recorded as guilty of drunkenness. In such case the limit will be extended to £4 if the soldier shall be in possession of four good conduct badges, and to £5 if he shall be in possession of five good conduct badges.
6. Men transferred to the Reserve or Auxiliary Forces to complete their term of service will, at the time of such transfer, be paid the sum they are entitled to, in accordance with the foregoing paragraphs, for each good conduct badge then in their possession.
7. Such men, if allowed to rejoin the colours, will not be required to refund any portion of the amount so received. They will be paid, on final discharge from the army, a gratuity at the rates specified above, for any badge or badges they may have become possessed of, over and above those they had when transferred to the Reserve or Auxiliary Forces.

8. The gratuities issued in accordance with these regulations will be inserted in the Regimental Pay List, on a separate form. The soldier will sign the form in evidence of his having received the gratuity; and in each case in which the sum of £4 or £5 is awarded, the charge will be further vouched by a certificate of the Officer Commanding that the soldier has not been recorded as guilty of drunkenness during the 10 years immediately preceding his discharge.
9. Clause 197, Army Circulars, 1870, and Clause 17, Army Circulars, 1872, are hereby cancelled.
2. This Order will not affect the arrangement regarding the monthly remittance of the recoveries for drunkenness as notified in G. G. O. No. 129 of 1872.

No. 1277 of 1872.—The services of Assistant Surgeon W. A. D. Fasken, of the Medical Department, are placed temporarily at the disposal of the Government of the North-Western Provinces, with effect from the 15th October 1872.

LEAVE AND ALLOWANCES.

The 27th December 1872.

No. 4668.—In continuation of the Notification of this Department, No. 287, dated the 14th June 1872, the Governor General in Council is pleased to rule that the undermentioned Sections and Rules in the Civil Leave Code are applicable to Military Officers in Civil employ:—

Sections 18 to 21.

Rules 7 and 8 under Section 18.

Rule 1 under Section 19.

Rules 1 and 3 under Section 21.

2. His Excellency in Council is pleased at the same time to rule, with regard to the privilege leave of Military Officers in Civil employ, that no distinction shall be made between officers who have substantive Civil appointments and those who are merely officiating in the Civil Department; that the leave may be earned by uninterrupted duty in either the Civil or the Military Department, and that absence after the end of leave entails loss of all allowances for the period by which the leave is exceeded, and, if that period is more than a week, involves loss of appointment; but that the Government to which the absentee is subordinate may exempt him from the latter penalty under the eighth of the rules in the second paragraph of the Notification mentioned above.

3. This Notification supersedes the orders of this Department, No. 2405, dated the 12th September 1868, and No. 857, dated the 31st May 1871.

No. 1301 of 1872.—The following Army Circular (Special) of the 9th September 1872 is published for general information:—

ARMY CIRCULAR.

SPECIAL.

WAR OFFICE,
9th September 1872.

MARRIED ESTABLISHMENT OF REGIMENTS IN INDIA.

1. In future the Married Establishment of Batteries, Troops, and Companies serving in India will be kept entirely distinct from that of the Depôts.
2. The Married Establishment authorized by the Indian Government for Troops in India is as follows:—
All married Staff Sergeants and Sergeants; 12 per cent., of Trumpeters, Drummers, and Rank and File, calculated upon the Establishment of the Batteries, Troops, or Companies serving in India.
The number of married men allowed on the "Married Roll" of the Depôt is as shown in paragraph 1 of Clause 53, Army Circulars, 1871.
3. On the embarkation of a Regiment for India, any women on the married roll who may be left behind with their husbands in excess of the Home Establishment of the Depôt, and any who may from time to time be sent home from India, will be considered as a part of the Head Quarters Married Establishment of the Regiment, and consequently will not create vacancies at the Batteries, Troops, or Companies serving in India, as the families of such men will remain on the Indian Married Establishment chargeable against Indian Revenues.
4. These families will be entered separately in the Married Roll forwarded to the War Office, and all expenses, including travelling at home, connected with them, will be chargeable against Indian Revenues.
5. Paragraph 27 of Clause 53, Army Circulars, 1871, is cancelled, and paragraph 13 of that Clause is no longer applicable to Regiments in India or their Depôts.

No. 1304 of 1872.—With reference to G. G. O. No. 841 of the 15th August 1872, the following Financial Letter from the Right Hon'ble the Secretary of State for India is published for general information:—

FINANCIAL (MILITARY FUNDS).

No. 497.

INDIA OFFICE:

London, 21st November 1872.

To His Excellency the Right Hon'ble the Governor General of India in Council.

MY LORD,

- PARA. 1.—I have considered in Council your Military Letter No. 191, dated 9th September 1872, on the subject of the rates of subscription to the Military Funds to be paid by Regimental Majors of Royal Artillery and Royal Engineers. As these Officers are only entitled, when serving in India, to pay equivalent to that which was formerly drawn by them as Captains, I have decided that subscription to the Funds in the grade of Major shall not be compulsory on Regimental Majors of the Ordnance Corps, either in Europe or in India.
2. The Regulations of the Funds, however, provide that donations should be paid by subscribers in each successive grade, and the option of continuing to subscribe as Captains must be granted to such Officers on the understanding that they will be required to pay the donation of Major as well as that of Lieutenant Colonel on promotion to the latter rank, and that the widow of an Officer will only be entitled to the pension of the grade in which her husband was subscribing to the Fund at the date of his decease.

3. Those Officers who avail themselves of the option of subscribing as Majors should be allowed to do so under the regulations applicable to subscribers holding the rank and drawing the pay of Major, under which regulations health certificates are not required.
4. I request that this decision may be notified to the Army in General Orders.

I have, &c.,

(Sd.) AEGYLL.
